Ask People to Vote Climate

- 1 Start by listening** — Many people are not informed about the climate emergency or have strong feelings. Hear them out.
- 2 Don't interrupt or argue** — Even if you disagree with them, empathize with their valid concerns, then respectfully communicate our conviction that voting climate matters.
- 3 Share what matters to you** — Be personal, share your concerns for the future. Ask them to vote for candidates at every level who will address the climate emergency.

Because 2028 is **TOO LATE**
